

FAMILY BUSINESS NEW ZEALAND'S FORUM GROUP PROGRAM

The only professionally facilitated, executive discussion group in New Zealand that deals with unique complexities created by the overlay of family, business and ownership.

On the back of 22 years of success in Australia, Family Business New Zealand is proud to launch the Forum Group Program, which will provide a confidential space for family business leaders, executives and CEOs to raise tough issues, workshop concerns and celebrate successes. Members who have had similar experiences are encouraged to offer their insights while being guided by an experienced group facilitator.

Members who have participated in forum groups have consistently shared positive outcomes and experiences from their involvement. In fact, 99% of forum participants surveyed said they'd recommend a friend to join.

Why should you join a forum group?

- Gain perspective outside the family dynamics
- Talk freely, without judgment
- Surround yourself with like-minded family business leaders
- Discuss strategic planning, governance, human resources, marketing strategies, family business succession, conflict resolution, family business dynamics, and more.

Your commitment

The inaugural program will run over 14 months (May- June) with 12 facilitated sessions at a heavily discounted price of \$2995 + GST. This offer includes 2 free Forum Group Meetings to kick start your learning journey.

"My brother and I are in forum groups, which have been invaluable in having a space to speak freely and workshop issues with like-minded leaders".

Anthea Hammon,
Scenic World

"Three of my sons are members of forum groups and I've watched them all grow from it. They have access to what is essentially their own private board of directors.

Everyone is bound by confidentiality and they are there to help you be a better person".

Andy Kennard,
Kennards Hire
